In our **Service Center** you will find detailed **manuals** for all Magna Telemotive devices including the **System Client** and some optional features we are offering.
If you do not have an account for the Service Center please contact
TMO.productsupport@magna.com

1.   Hook up the BLUEPIRAT Mini
Step 1: Connect the **BLUEPIRAT Mini** to the vehicle battery or a power supply via the power harness (**red / Vbat / + / clamp30** and **black / GND / - / clamp31**).
Step 2: Connect the Gigabit-Ethernet port **ETH #1** with the Ethernet port of your computer by using an Ethernet cable.
Note: By default, the device is configured as Automatic DHCP configuration for with IP address 192.168.0.233!
2.   Power on/off the BLUEPIRAT Mini
Step 3: Switch on the device by pressing the **[On / Trigger]** button and wait until the logger is ready.

For switching off the device please press the **[ON / Trigger]** button for about 5 seconds till the [Active] LED starts pulsing.

3.   Connecting to the BLUEPIRAT Mini
Step 4: Open your Internet browser, enter the **IP address 192.168.0.233** and confirm with [Enter].
Note:

- Make sure your network settings will be set to **"apply IP address automatically"**
- The needed Java Runtime Environment is included into the client and has not to be installed separately.

The computer will established a connection to the device and your browser will show the Client portal.

4.   Installing the System Client
Step 5: Please click on the image to start the download of the client installer or the portable version from a direct link.
Choose **[Save]** to save the file to your local computer and start the installation by double clicking on the setup file. Follow the instructions, choose a destination directory and finalize the installation by pressing **[Install].**
Step 6: After installing the **System Client** successfully, you will find the System Client icon on your desktop.
Double-click the icon to start the application.

Step 6.b: If you have chosen the **portable version** of the System Client, you just have to unzip it to start.

The menu item **[Help]** offers access to the links of the main manuals.
5. Using the System Client

Step 7: In the **Network logger window** you will find the connected devices (with the IP address from step 4).

By pressing one of the seven icons, you can open this application for the selected **BLUEPIRAT Mini**.
