# Telemotive AG

# 1. Hook up the blue PiraT2

**Step 1:** Connect the blue PiraT2 to the vehicle battery or a power supply via the power harness (red/+/clamp30 and black/GND/-/clamp31)..

#### ATTENTION: If you have ordered an external antenna eg. for GPS, the connector has to be bolt only by hand, NOT with any tools!

**Step 2:** Connect the Gigabit-Ethernet port with the Ethernet port of your computer by using a crosslink Ethernet cable. (Note: By default the blue PiraT2 is configured as DHCP-Server!)

### 2. Power on/off the blue PriaT2

**Step 3:** Switch on the blue PiraT2 by pressing the **[Trigger]** button and wait until the logger is ready. The Telemotive-Logo changes into showing the available CAN and LIN ports..

To switch off the blue PiraT2 please press the [Esc] button for a few seconds.

## 3. Connecting to the blue PiraT2

**Step 4:** By pressing the rotary button you will enter the operation menu. Here you can navigate by rotating and pressing the rotary button.

Please choose here the Menu [1] Info navigate to Infoscreen 9/10 IP The shown IP address will be needed in the next step.

Step 5: Open your Internet browser, enter the IP address from step 4 and confirm.

# Note:

- Make sure your network settings will be set to "apply IP address automatically"
- The 32-bit version of Java Runtime Environment 7 (JRE 7) is necessary to run the client

The connection between logger and computer will be established.

#### Installing the blue PiraT2 Client

**Step 6:** Please click on the blue PiraT2 image to start the client download (~40MB). The installation setup can be started by pressing **[Execute]**. Follow the instructions, choose a destination directory and finalize the installation by pressing **[Install]**.

Step 7: After successful installation you will find the "blue Pirat2 Client" icon on your desktop. Double-click the icon to start the application.

# 5. Using the blue PiraT2 Client

**Step 8:** In the Network logger window you will find the connected data logger (with the IP address from step 4/5). By pressing one of the five icons you can choose the desired of the listed functions below.
