7. Licensee agrees to defend and indemnify Licensor and hold Licensor harmless from all claims, losses, damages, complaints, or expenses connected with or resulting from Licensee's business operations.
8. Licensor has the right to terminate this License Agreement and Licensee's right to use this Software upon any material breach by Licensee. duration of the license contract is indefinitely determined.
9. Licensee agrees to return to Licensor or to destroy all copies of the Software upon termination of the License Contract.
10. This License Agreement replaces and supersedes all prior negotiations, dealings, and agreements between Licensor and Licensee regarding this Software.
11. This License Contract is subject to german law.
12. If a regulation of this license contract is void by law, the validity of the remaining regulations is not affected. If there is such a regulation it will be replaced by a valid, according to the legal regulations and enforceable regulation with similar intention and similar economic consequences.
13. the license contract is effective by delivery of the software of the licensor to the licensee and/or by usage of the software by the licensee. This License contract is also valid without Licensor's signature.
14. The license automatically goes out if the licensee does not agree to the license regulations described here or offend against the license regulations of this license contract. With ending the license contract the licensee is obliged to extinguish all copies of the software or to destroy it.
15. The LICENSEE sticks for all damages which originates the licensor from the injury of these license regulations.

2. PRODUCT LIABILITY

For all offers, sales and supplies do explicit apply the following conditions, even if the buyer, orderer and suchlike prescribes other conditions. Alterations are only valid, if they are agreed in writing.

1. The technical documentation is part of the products. The product liability and the product guarantee will be excluded, if contents and in particular the safety references and instruction for action of the documentation are not considered.
2. The products do belong to the group of testtools. by application of the equipment a disturbance of the tested system cannot be completely excluded. For this reason, the warranty of a perfectly functioning system cannot be taken over by the manufacturer. Application of the product takes place at one's own risk.
3. The liability of the substitution of damages according to §1 product liability law, is expressly excluded in the context of §9 product liability law, as far as compelling legal terms do not provide anything else.
In no event will the producer be liable for any indirect, incidental, special or consequential damages, including loss of profits, loss of revenues, loss of data, loss of use, any other economic advantage or damages caused by pretensions of third party towards the customer out of this agreement, under any theory of liability, whether in an action in contract, strict liability, tort (including negligence) or other legal or equitable theory.
The burden of proof is with the customer.
4. The Telemotive AG does ensure the legal warranty according to German law. Except for warranties expressly set forth in this agreement, any and all products are delivered "as is" and the producer makes and the customer receives no additional express or implied warranties. The producer hereby expressly disclaims any and all other warranties of any kind or nature concerning the products, whether express or implied, including without limitation, any warranty of title, merchantability, quality, accuracy, or fitness for a particular purpose or the customer's purpose. The producer expressly disclaims any warranties that may be implied form usage of trade, course of dealing, or course of performance, except for the express warranties stated in this agreement. The products are provided with all faults, and the entire risk of satisfactory quality, performance, accuracy, and effort is with customer. The producer does not warrant that the Products will operate without interruption or be error free.
5. The Telemotive AG is justified to exchange defective goods against homogeneous acceptable ones or to eliminate the fault within an appropriate period. In this case a demand for redhibitory action or reduction of price expires. Warranty claims presuppose a due notice of defects.
6. Resale, transfer, donation, exchanges or the rental of the offered products at third party, is permitted without clearance of the Telemotive AG.
7. German Law is deemed to be as legal basis.

3. Overview

The Terminal Light feature of the blue PiraT2 is an enhancement which allows to download recorded traces from several blue PiraT2 simultaneously by giving the devices a second IP address. In this case the devices have not to be configured as DHCP-Client, and the user don't has to configure the network settings at each blue PiraT2.

This document refers to blue PiraT2 FW 01.09.01 and blue PiraT2 client version 1.9.1. Some features depending on model and feature license or may not be available in older versions.

Software updates are frequently available in the blue PiraT Service Center. Please make sure to use current software.

4. System requirements

Control Unit

A Laptop or a PC is used to configure the devices by a software client. It also allows to save the recorded data and to use them offline.

blue PiraT2

The blue PiraT2 is an optimized data logger developed by Telemotive AG. The communication of bus systems and control units are monitored and relevant data can be recorded very precisely with the blue PiraT2. The collected data are stored on the blue PiraT2 and can be downloaded to a PC

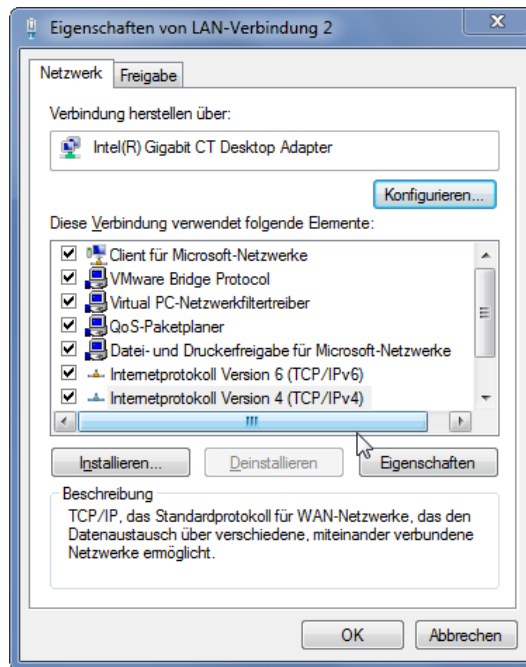

License

A license is required to use the Terminal Light feature. All steps can be performed only with a valid license.

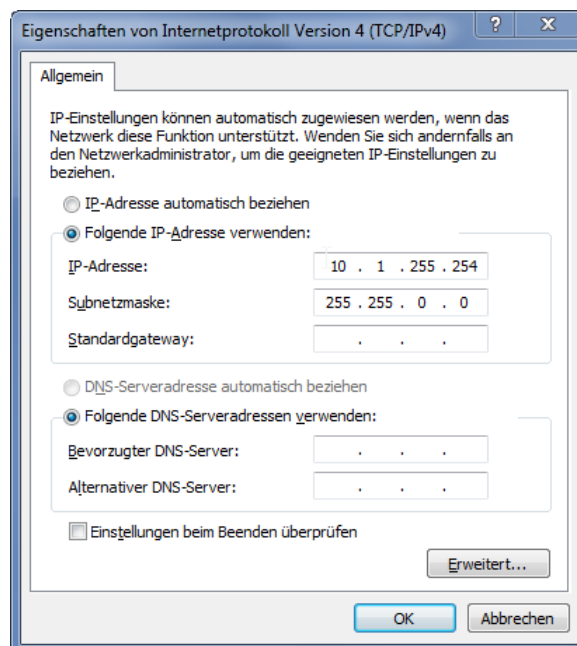

5. Description

The license Terminal light gives the blue PiraT2 an additional IP addresses which is in the subnet 10.1.X.Y. The blue PiraT2 client (up from V1.9.1) can reach the logger with this IP address. To reach the logger in this way, the IP-Address of your network card has to be configured with IP address 10.1.255.254 and subnet mask 255.255.0.0.

For this please change to your correspondend LAN connector and choose [Settings].

There you can change the IP address and subnet mask and save the settings with [OK]

After that the client can establish a connection to these logger with Terminal Light license and shows these logger with their additional IP address in the list of network logger. Now these devices can be used by the client to download the traces simultaneously.

6. Displayed message at RC/RCV
